International Roundup (Continued)	be Leased at a Cost 25 Percent Lower; A New Technical Dictionary	Mar	81
	Germany: The Exhibition "Laser Foil Science and Industry"; Where do German Firms Stand in World Competition?; Federal Bank Gives Warning	Mar	87
	Japan: Economic Ties of Pacific Ocean Countries Become Stronger	Mar	91
	United Kingdom: Final Figures for Export Deliveries in 1968 Have Reached About 135 Million Dollars; Numerical Control (NC) Implies the Automatic Control of a Machine Tool	Apr	86
	Germany: The International Technical Exhibition of Linear Measurement Techniques; Germany is Installing Computers at a Record Rate	Apr	87
	Japan: Japan is Becoming a Huge Market for U.S. Non-Electric Machinery; The JMTTA Will Participate for the Seventh Time This Year in the ASTME Tool Exposition in Chicago	Apr	90
	United Kingdom: The Machine Tool Trades Association has Registered its Strong Disapproval to the Government's 50 Percent Import Deposit Scheme; The Ministry of Technology has Commissioned the U.K. Atomic Energy Authority's Calham Lab to Carry out a Survey of Electrical Methods of Machining and Forming	May	81
	Germany: A U.S. Work-Study Program in Germany; Independent Economists Commissioned by Bonn	May	87
	Japan: Kaufmann Tool & Engineering Corp. of Chicago, Ill. Announced the Signing of a Licensing Agreement	May	91
	United Kingdom: The Fortunes of the British Machine Tool Industry; A Two-Stage Transition to NC is Offered on a Range of Machine Tools; A Twin-Head Turret Milling Machine	June	81
	Germany: Large Scanning and Measuring Machines; Improvements in Productivity	June	87
	Japan: Economic Assistance to Developing Nations	June	91
	United Kingdom: The Ministry of Technology Has Extended its Highly Successful PreProduction Scheme for Machine Tools; The Automatic Plant is Taking Shape; Pushbutton Control for Ease of Machine Setting	July	83
	Germany: The Swiss Machine Tool Trade Came Up With Some Interesting Facts for 1968	July	91
	United Kingdom: British Machine Tool Manufacturers Have a First-Class		

XUM

		MONTH	PAGE
International Roundup (Continued)	Opportunity to Step Up Their Exports to the U.S.; A "Dialogue" is Arranged to Try to Close the Gap Between the Machine Tool User and the Machine Builder	Aug	87
	Germany: The Production of Machine Tools of the Federal Republic of Germany in 1968 Has Risen	Aug	89
	Japan: A Computer-Controlled Machine Tool System Has Been Placed in Operation	Aug	91
	United Kingdom: New Orders for British Machine Tools Reached a Record Level	Sept	83
	Germany: The Delivery Period of the German Machine Tool Manufacturers is More Than it Has Been in a Long Time; Many New Machine Tools Today are too Expended	Sept	85
	Japan: Members of Four Japanese Industry Groups Conferred with the AMF Versatran Division on Industrial Robot Technology and Applications; Ductile and Grey Iron Castings are Now Available; Riding High on the Waves of Motorization	Sept	89
	United Kingdom: Despite a Sharp Reduction in Machine Tool Orders in May—The Total of 35.3 Million Dollars Was the Lowest Since Last November; Britain's Machine Tool Manufacturers Won About $750,000 Worth of Immediate Orders at this Year's European Machine Tool Exhibition in Paris	Oct	83
	Germany: With 811,000 Open Work Positions, and Little More Than 100,000 Unemployed to Fill Them, West Germany is in a Position it Has Never Been in Before; Exports in 1968 Represented About 10 Percent of Machine Tool Distribution	Oct	85
	Japan: According to Statistics Compiled by Japan Electronic Computer Co., Ltd., Electronic Computers in Operation in Japan, as of March 1969, Numbered 4,900; A New Type of Bearing, Lubricated with Helium Gas Refrigerated to 196 Degrees Below Zero has Been Developed	Oct	89
	United Kingdom: Advantages of the Increase in Numerically Controlled Machine are not Being Realized; The First Showroom in the U.K. to be Given to Russian Machine Tools	Nov	83
	Germany: Many German Machine Tool Manufacturers Have Already Sold Their 1970 Production	Nov	87
	Japan: Japanese Machine Tool Exports During the First Half of 1969
